

NOTES TO ACCOMPANY GEOTECHNICAL POLICY MAPS

- 1) Areas delineated **G** require a GEOTECHNICAL REPORT in accordance with DIPNR Geotechnical Policy Kosciuszko Alpine Resorts.
- 2) Area G boundaries have been determined from the results of geotechnical mapping. Future modifications to site conditions and refinements to available data, including base maps, may result in boundary location amendments from time to time.
- 3) The extrapolation of area G boundaries beyond map sheets may be inappropriate and should not be attempted without geotechnical confirmation.
- 4) The requirement or otherwise for a Geotechnical Report in accordance with the Policy does not necessarily eliminate requirements for other geotechnical studies as may be appropriate, to address site investigations, specific design investigations or environmental/contaminant issues.
